**To:** Provider

**RE: New! Family Choice ACO Hospitalist Incentive Program**

---

Family Choice ACO has developed a new ACO focused Hospitalist program aimed at improving patient quality of care, provider experience and reducing unnecessary costs of care. The ACO hospitalist team is devoted to solely treating Family Choice ACO patients in the hospital around the clock.

**Family Choice ACO Advantage for Primary Care Physicians:**

- Improved coordination of care for ACO patients in multiple local hospitals (except UCI Medical Center and Hoag Presbyterian Hospital)
- Team will assist with post discharge care: follow up to PCP, placement in extended care facilities and/or home health services (as needed).
- Assist the PCP in gaps in care measures, freeing up the PCP to devote more time and energy to the office practice

Providers who participate in Family Choice ACO Hospitalist Program will receive an **initial incentive** of (0-100 Attributed Patients = **\$500.00**) or (101+ Attributed Patients = **\$1,000.00**).

Plus, you will be able to participate in the **shared savings** at the end of each CMS reconciliation period.

I, \_\_\_\_\_, select Family Choice ACO Hospitalist Program.
