OneCare frequently used CPT II codes for HEDIS measures (Session#1)

Listed below are frequently used HEDIS Star measures and their applicable CPT II codes.

1- **Care for Older Adults (COA)**
   a. Functional Status Assessment (FSA) Functional status assessed: use code 1170F
   b. Medication Review (MDR) Medication list documented in the medical record: use code 1159F
   c. Review of medications by prescribing practitioner or clinical pharmacist documented in the medical record; use code 1160F
   d. Pain Screening (PNS) Pain severity quantified, pain present: use code 1125F
   e. Pain severity quantified; no pain present: use code 1126F

2- **Glycemic Status Assessment (GSD)**
   a. Most recent HbA1c level less than 7.0%: 3044F Most recent HbA1c level above 9.0%: 3046F
   b. Most recent HbA1c level above 7.0% and less than 8.0%: 3051F
   c. Most recent HbA1c level above 8.0% and less than 9.0%: 3052F

3- **Eye Exam for Patients With Diabetes (EED)** (NPI required in addition to CPT II code to close care opportunity)
   a. Without evidence of retinopathy:
      i. Dilated retinal eye exam with interpretation by an ophthalmologist or optometrist documented and reviewed: use code 2023F
      ii. Seven standard field stereoscopic retinal photos with interpretation by an ophthalmologist or optometrist documented and reviewed: use code 2025F
   b. With evidence of retinopathy:
      i. Dilated retinal eye exam with interpretation by an ophthalmologist or optometrist documented and reviewed: use code 2022F
      ii. Seven standard field stereoscopic retinal photos with interpretation by an ophthalmologist or optometrist documented and reviewed: use code2024F

4- **Controlling Blood Pressure (CBP)**
   a. Systolic
      i. Systolic less than 130 : use code 3074F
      ii. Systolic between 130 and 139 : use code 3075F
      iii. Systolic equal or above 140 : use code 3077F
   b. Diastolic
      i. Diastolic less than 80 : use code 3078F
      ii. Diastolic between 80 and 89: use code 3079F
      iii. Diastolic equal or above 90 : use code 3080F

5- **Medication Reconciliation Post- Discharge (MRP)**
   a. Discharge medications reconciled with current medication list in the outpatient medical record: use code 1111F (NPI required in addition to CPT II code to close care opportunity)
